D A S H
Business with Impact

WHO WE ARE

We are a Business Intelligence Consulting firm organized as Lab. in order for us to constantly improve the way we help organizations make data based decisions.

Today, we are dedicated to help locally/regionally established multinational companies get more and more value from their Data by empowering them with our Business Intelligence knowledge and Power BI expertise.

Our team is made up of BI Engineers and certified consultants, in addition to UI/UX specialists and project managers. We are continually in search of elite collaborators and are proud to count in our ranks the most talented/expert specialists in our field.

WHAT WE DO

We empower our clients by helping them get more value from their Data through :

- Creation of high quality analytical solutions on PowerBI
- Training and capacity building for users, developers, compliance, IT, business, and strategy teams.
- Power BI deployment, adoption, and governance strategy.
- Consulting, support, maintenance, enhancements.
- A unique adoption framework for a successful transformation.

CLIENTS AND PARTNERS

We are proud to empower Fortune500 companies and global leading brands through different industries (Retail, Pharma, Telco, Banking, Tech.) by helping them get more value from their Data in local complex markets all over MENA region.

WHAT IS DASH-BI

Apprenticeship Program?

As the demand for BI consultants and analytics resources keeps increasing, we want to make sure to provide our clients with the best possible talents on the market. That's why we created our special Apprenticeship Program.

The DASH-BI Apprenticeship Program is a FREE program designed to take you from a promising talent with a particular interest for Data, to an effective BI Consultant ready to challenge international scale complex problems.

WHY ARE WE DOING THIS??

The world is evolving at a fast pace. Technology is disrupting traditional industries and pushing actors that are leaders in their markets to explore and shift to new business models. Pharmaceuticals, Banking, Telco, Tobacco, and so many others are all today adopting technology, in a context where consumers are at least as much troubled in their natural behaviors, by the same technology.

Today, our clients are needing daily answers to face this sudden disruption, and it is our duty to provide them with the qualified BI and analytics resources to answer their needs. In order for that to happen, we have dedicated ourselves to share our expertise, our methodologies, our frameworks, with the most promising talents looking to build a data analytics career, and welcome them among our ranks.

HOW THE PROGRAM IS GOING TO CHANGE YOU?

HOW DOES IT WORK?

- Become a qualified Power BI consultant and start your career working on complex projects for world class clients.
- Learn directly from our team consultants and experts already rocking the scene.
- Experience an intense and immersive set of trainings dedicated to make you one of the best consultants on the market.
- Develop management and soft skills needed to successfully deal with clients complex real time situations.
- Access internal frameworks, methodologies, strategies that will help you grow your skills in a very limited period of time.

The Apprenticeship Program is composed of :

- Community based Mentorship Program with more experienced consultants and DASH experts team.
- Self-paced training program designed to transfer all the needed knowledge in straight to the point way.
- Shadowing sessions during which you will be assisting with your mentors during actual work hours so you can be able to replicate similar methodologies.
- Coaching and Consulting sessions.
- Content creation, Research and Essay assignments.
- A huge amount of resources available at your entire disposal.

HOW DO YOU BENEFIT?

WHAT ARE WE LOOKING FOR?

MUST

- Have the ability to work in Blida.
- Available for the apprenticeship program full time during its duration 5/7.
- Educated to at least License level in a field related to Computer science/ Data Science / Business Administration / Management Information Systems.
- Disciplined and motivated to start an Agile Business Intelligence consulting Career.
- Have Basic database, excel and information systems knowledge

PLUS

- Prior Power BI training.
- Prior BI/Data Analysis training on another tool like tableau/qlik /Data Studio/python.
- Good grades and academic performance .
- Professional experience in a related field.

| SELECTION PROCESS

Among the hundreds of applications, only 3 to 10 participants will be chosen to go through the Apprenticeship Program and have the chance to kick-start their career as BI Consultants and start working on Fortune500 projects.

The selection process starts by a form. You will simply have to answer a series of questions. If you pass this step, a technical assessment awaits you. If you pass successfully the test, a final HR physical interview with DASH team will decide your fate.

F A Q

How much does the access to the program cost ? What are the different fees ?

-The program is fully funded by DASH and its partners, which means it is **TOTALLY FREE**.

The program will on Dash-Bi site, Full time 8/24 and 5/7.

Can I be kicked out of the program ?

-Lack of discipline may lead to your expulsion.

Make sure you only apply if you are certain to be able to go through with the program.

Do I have to sign anything if I manage to access the Program ?

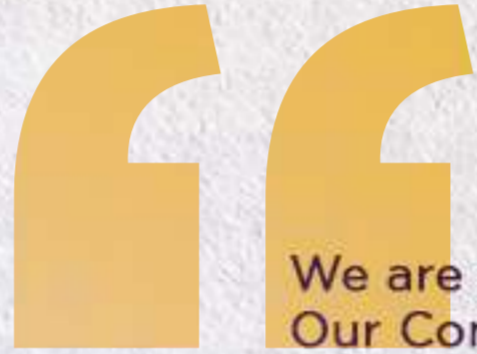

-Yes, accessing the Apprenticeship Program implies the acceptance of different agreements such as Non Disclosure Agreement in addition to a non-compete and loyalty clause.

- Breaking the loyalty clause can only be made possible by offsetting the cost of DASH's investment in the program.

VISION |

We are a leading Power BI consulting firm that reshapes the Data Industry in North Africa. Our Consultants team is always on the front lines with clients handling complex and large-scale projects with different industries. And we want to prepare you to join the adventure.

The people on this team will need to be technically savvy but most importantly, they need to be great human beings and excellent communicators, and if this is something that sounds interesting to you buckle up.

Now I'm not going to lie to you, it might be complex, difficult and stressful at times, there are always those difficult days, but I promise you one thing, it is going to be very Exciting, and the results will always be Impactful, something you are increasingly proud of.

We are building our firm DASH from the ground up specifically to be the right place for people like you.

I have created this program to share all I gathered as experience and knowledge since creating this firm with you, all I ask for, is your commitment.
